

Villa Pest Control Campaign

Ref: AAF/AR/1784/0406

12 April 2020

To all residents of Arabian Ranches

Dear Resident,

We would like to inform you that we have intensified pest control treatment in the community's common areas including pathways, landscaping and lakes to combat the influx of mosquitoes and flies.

To ensure the treatment's success, a villa pest control campaign is currently being carried out in addition to common area pest control treatment. Residents of Arabian Ranches may call any of the below mentioned service providers and book treatment for mosquitoes and flies in their villa at reduced rates.

This offer is limited to the campaign period from **12 April** to **22 April**.

| Pest Control Service Providers | Contact number for bookings | One time treatment cost |

The scope includes:

- 1. Inspection:** Full inspection to locate possible harborage points of mosquitoes and flies in all areas of the villa garden.
- 2. Adult mosquito control:** Thermal fogging / ULV treatment in areas of the garden that could potentially harbor mosquitos.
- 3. Larviciding:** Application of larvicide in all suspected breeding areas of mosquitoes (gully traps and other stagnant water points).

We encourage all residents to avail of this exclusive offer and get their villas treated in order to help alleviate this issue. In addition to the above companies, residents may also contact their own pest control service provider for carrying out the treatment.
